Establishing the Scientific Validation of the Biopsychosocial Model of Care

SPEAKER
Robert Smith, MD
Michigan State University

TIME
Thursday, February 13, 2014
5–6:30 p.m.

LOCATION
Billings Auditorium P-117

Refreshments will be served

Robert C. Smith, MD is a Professor of Medicine and Psychiatry at Michigan State University in East Lansing. Dr. Smith’s research focuses on the biopsychosocial model of medicine and patient-centered care.

Dr. Smith’s research has resulted in the development of the first systematized and defined patient-centered interview. Dr. Smith has written one of the most popular interviewing textbooks, *Smith’s Patient-Centered Interviewing: An Evidence-Based Method* (3rd edition, McGraw Hill, 2012). This book is used in medical schools in the United States for teaching future healthcare professionals the art of interviewing and establishing the doctor-patient relationship.

The Bucksbaum Institute for Clinical Excellence was created to improve patient care, to strengthen the doctor-patient relationship, and to enhance communication and decision-making through research and education programs for medical students, junior faculty and master clinicians.
